

Occupational Safety and Health Policy Statement

For Alimentos Mar Profundo S.A. Management, a company dedicated to the production and marketing of seafood products for human consumption in both domestic and international markets, human resources and facilities are the central part. Together with the environmental protection, it provides sustenance and the basis for the development of high quality seafood cans.

Being human resources one of the central pillars, it is a commitment to maintaining an Occupational Safety and Health Policy Statement. In that sense, it is a duty to comply with existing legal provisions governing its operation, performing a productive and safe work, ensuring human development, and preventing injuries and diseases in a harmonious working environment promoting care through training.

This policy commits all Alimentos Mar Profundo S.A. employees, which in their daily activities should incorporate the implementation of the necessary preventive measures to reduce significantly the risks, preventing occupational diseases and accidents.

It is assumed the commitment to check regularly this policy and its management system with the aim of producing a continuous improvement, allowing the achievement of higher standards in occupational safety and health.
